

READY FOR TAKE-OFF

With AXIS you develop and produce high-end **FLIGHT SIMULATORS** with the most innovative technologies for pilot training. Start with us into your exciting future with great benefits.

Flight Model Engineer m / f / d

For this position you should have 5+ years of experience in:

- Modelling of flight models (aerodynamic, ground reaction, flight controls, engine) for Full Flight Simulators, based on:
 - Flight Tests
 - Scientific Research
 - CFD / Wind Tunnel
 - Analysis of flight test data
 - Usage of parameter estimation tools and methods
 - Development, maintenance and updating of estimation and simulation tools
- Integration, validation and acceptance tests of Full Flight Simulators:
 - QTG test setup and tuning
 - QTG Document setup
 - Test lead during in-plant and onsite acceptance
 - Lead during FAA / EASA initial qualifications

Your profile

- Deep understanding of aerodynamics and the physics behind
- Deep understanding of the operation and qualification of a full flight simulator
- Confident knowledge of Matlab / Simulink
- Solid knowledge of at least one coding language such as C++ or Python
- Experience in simulation of control systems
- Independent working style and solution oriented
- Team player and open to new solutions
- Willingness to travel

We offer

- A highly motivated team in which your commitment is appreciated
- Flexible flexitime model and home office option
- Good public transport connections, free parking
- Daily meal allowance, coffee, tea and seasonal fruit
- Team events and further training opportunities
- The opportunity to put your product developments into operation on site with our national and international customers

Does this appeal to you? Then send us your application to: career@axis-simulation.com

The minimum monthly gross salary for this position is € 2.668,69 according to the collective agreement (metal industry). **Depending on qualifications and professional experience, we offer you a market-based salary.**
